

## 2017 Bugeater Warhammer 40k Results for Sweepstakes Champion (Overall Record)

The overall score is expressed as a decimal. We take your win/loss record divided by the best possible record (6) and multiply that times 0.5. We take your painting score and divide it by the best possible painting score (30) if you include bonus points for placing) and multiply that by 0.3. We then take your sportsmanship score and divide it by the best possible sportsmanship score (54) and then multiply that by 0.2.
